Corporate Social Responsibility

Project Bachpan - Bihar

- 19 Bachpan centres remained operational for 76 days in Q2, with 429 children enrolled and learning.

Thematic Learning: During Q2 (Weeks 4-8), the major themes covered at the Bachpan centres were “Mera Sharir” (My Body) and “Meri Indriyan” (My Senses). These themes were taught to children through five engaging stories and four poems. In terms of language development, the Hindi letters म, ल, क, फ, and ब were introduced. For cognitive development, children learned the numbers 2, 3, and 4, as well as shapes such as triangles, squares, and rectangles.

Formative Assessment: In July 2024, 418 children studying at Bachpan Centres were assessed to understand their knowledge levels at the start of the 2024-25 academic year. These children were evaluated across five Domains of Development. This assessment aimed to help teachers enhance the teaching and learning experience. Multiple Continuous Evaluations will follow to check the teaching effectiveness, and at the end of the year, Summative Evaluation will be undertaken to understand the student's learning progress.

Deworming drive: The project team successfully conducted a deworming drive in September 2024 at its 19 Bachpan centres located in Khaira and Sikandara blocks of district Jamui (Bihar). This initiative aims to prevent worm infections in children, ensure better nutrient absorption, and enhance their ability to concentrate and learn.

The doctors and nurses from the Foundation's health project administered Albendazole capsules/syrup to children across the 19 Bachpan centres. The first dose was administered from September 2 to September 25, 2024, with the second dose scheduled for March 2025.

JM Financial Shiksha Samarthan

1790 private school students' fee disbursed for the new academic year (2024-25) in Q2

Total INR 2.32 Cr fee disbursed as first instalment of school fee

Beyond Financial Support: The Swayam initiative by JM Financial Foundation aims to empower the mothers of our Shiksha Samarthan students. Based on feedback from previous meetings with mothers working in the beauty industry, the Foundation has launched a structured program for upskilling them. This has been done in collaboration with Enrich Hair and Skin Solution Pvt Ltd.

The mothers visited the Enrich Academy in September for an orientation. The visit gave them essential information about the course structure, class schedules, and other critical details, setting the stage for their professional development in the beauty and wellness industry. The mothers will begin their journey in the five-month customised course in professional beauty in October.

This initiative aims to equip these mothers with valuable skills and enhance their confidence and independence, ultimately contributing to their self-employment.

Model Village Development Project - Bihar

- **Farmers' Training:** Between July and September, the project team conducted 13 extension training sessions on SRI techniques (Paddy sowing/transplantation) in 13 intervention villages across the Khaira and Sikandra blocks of Jamui district, Bihar. These meetings were attended by 373 farmers (194 females, 179 males).
- **Special Training Session:** Between July and September, the Foundation conducted two specialised training for farmers. Shri Pramod Kumar Singh, a senior Agronomy Scientist from Krishi Vigyan Kendra, Jamui. He guided farmers on the technique of paddy transplantation through the system of rice intensification (SRI) technique. The training, attended by 47 farmers from Khaira and Sikandara, emphasised the importance of using non-hybrid seeds for the SRI technique to avoid high costs and soil degradation associated with fertilisers. In another specialised training conducted in September, Dr Mukul Kumar, an Agriculture Scientist from Krishi Vigyan Kendra, Jamui, was invited to train farmers on weeding, fertilisers, pesticide management, and rabi season crops. This session was attended by 49 farmers and provided valuable insights into effective crop management practices.
- **Exposure Visit:** In August, the Foundation team and a few farmers visited the Hikyor Agro Plant in Kharoundih, Muzaffarpur. The primary purpose of the visit was to learn about all-weather drumstick and jackfruit varieties, which can bear fruit twice a year and thrive in drought-prone regions like Jamui. The team finalised the procurement of three varieties of drumsticks, jackfruit and bamboo saplings.
